## Majority owner eyes the sale of a minority stake

Company update

Halyk Bank today announced the launch of a fully marketed offering and bookbuilding process for international and domestic investors for at least 12m global depository receipts (GDRs), representing c 4% of Halyk's outstanding common shares. The GDRs are offered for sale by Halyk's majority shareholder (ALMEX Holding Group), which currently holds a 69.5% stake (the remaining 30.5% is considered free float). Therefore, Halyk will not issue any new shares nor raise fresh capital in the process. The announcement follows an earlier declaration by ALMEX that, following feedback received from the investment community, it is evaluating ways to improve the liquidity of Halyk's shares and GDRs, including a potential partial sale of its stake. The offering should also help diversify Halyk's shareholder base. ALMEX will retain a majority stake in Halyk and remain fully committed to the bank's long-term success.

The bookbuilding process will commence today (19 November) and is expected to close on 21 November. The final offering price is expected to be announced upon completion of the bookbuilding process on or about 21 November. The domestic offering will be directed to institutional and retail investors on the Astana International Exchange and Kazakhstan Stock Exchange, where Halyk's common shares and GDRs are listed (Halyk's GDRs are also listed on the London Stock Exchange).
